Technical skills:

- HTML, Angular, CSS, PHP, Git, Gitlab, Visual Studio Code

PROJECT

Vakary, *study project for 3 years*

Vakary is a Web and Mobile application for travelers. They can fill their center of interest, their time, budget and where they want to travel. The application will then create a travel itinerary based on the previously entered informations. This remove the tedious task to look for places to go to, in the city you want to visit beforehand.

Currently developing on <https://eip.epitech.eu/2024/vakary/#/>

Technical skills:

- TypeScript, Sequelize, NodeJS, PostgreSQL, Docker, VueJS, HTML, CSS, Azure, Traefik, Github, Git
